- Video-connector RCA male connector
- Working temperature -20° bis +65°C

Installation

- Video signal
- +12V Switch-on and supply current
- Ground

In case the isolation of the camera is harmed in the moisture section close to the camera, it is mandatory to repair the isolation. Otherwise the camera will inevitably become moist inside sooner or later.

Install the camera with the complete and enclosed set of cables only. There is a voltage reducer from 12V to 3.3V in the adapter below!

Tip for dealers:

Inform your end customers that the rear-view camera mustn't be cleaned by steam cleaner!
